| Gw - Withdrawals and restrictions | |
| EMPHASIS H - FORESTRY | |
| Hc - Commercial forest land | |
| Hp - Productive pinyon-juniper woodlands | |
- * These resources are displayed on this map.

NOTE TO MAP USERS

The surface and minerals management status overprints are published as general planning and management tools. Some of the lands, surface, and mineral rights, may have been shown as patented lands due to the lack of information available to BLM with respect to the nature of acquisition. Tracts less than 40 acres are usually omitted because of the map scale. Access through private lands may be restricted.

The official land records in the respective offices of the Bureau of Land Management or other responsible Federal agencies should be checked for up-to-date status on any specific tract of land. Inadequacies in the BLM maps should be reported to the respective Bureau of Land Management offices from which the maps were obtained.

This map does not meet National Map Accuracy Standards.
